EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claim 8 has been amended as follows to correct an obvious typographical error¹.

8. (currently amended) The process according to claim 1 wherein the angular variation of the radial carcass reinforcement is effected by means of a cylindrical sleeve which is vulcanized and formed of two auxiliary plies N, the reinforcement elements of which form angles equal respectively to ~~$\pm\alpha$~~ to $+\alpha$ and 90^0 with the circumferential direction.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geoffrey L. Knable whose telephone number is 571-272-1220. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on 571-272-1226. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

¹ In this regard, it is noted that original claim 3 recited that the reinforcing elements in the two auxiliary plies N formed "angles equal respectively to 90^0 and $\pm\alpha$ or $\pm\alpha$ and 90^0 with the circumferential direction", applicant's expressed intent being to reflect the original four possibilities that were covered by original claim 3, it being set forth in the 5-17-2004 response that "amended claim 3 recites only one of those possibilities, whereas new claims 8-10 recite the other three." Claim 8 and 9 however inadvertently were presented as duplicates, it being clear however that this was simply a typographical error with respect to the wrong sign before the α in claim 8.
